## Brighton Banda – Computer Engineer

### Profile summary

I am a Computer Engineer with increasingly extensive knowledge of data management, programming languages (PHP, JAVA, C++, C#, MySQL and MSSQL), software engineering & development, and configuration of computer networks. I feel confident that I will significantly benefit your organization.

I have knowledge and skills in carrying out multiple tasks that enable me to respond practically and operate successfully in both Data Collection, Data Entry and ICT Fields. I possess good working knowledge of computer networking, hardware, software, and I am well acquainted with troubleshooting of operating systems.

### Work Experience
